Subject: Re: credit for figure in Portland Harbor Proposed Plan

Laura,

Here's a link to our fact sheet where the figure first appeared: https://www.fws.gov/oregonfwo/contaminants/portlandharbor/Documents/FS_CleanupToRestoration.pdf I'd recommend using the same title and the caveat under the image.

thanks,

Hi Lauren!

It was great to chat with you earlier today! If you get a chance, could you please send me the document (or a link to the document) from the Portland Harbor Natural Resource Trustee Council that has the figure EPA used in the Proposed Plan on page 17? That way we can cite the document that it came from as well!

Thank you so much & please let me know if you have any questions!

Subject: credit for figure in Portland Harbor Proposed Plan

hi Alanna,

I noticed that the Trustee Council's figure of Potential Methods of Exposure to Contaminants in Portland Harbor is used on page 17 of the proposed plan. Could you please cite the Trustee Council (Source: Portland Harbor Natural Resource Trustee Council). You may also want to include the caveat that we use for this graphic on our products "This graphic does not depict all of the exposure pathways or all of the potentially injured resources in Portland Harbor."

I could submit this as a comment, if you prefer, but since it's more of an edit than a comment I thought I'd try reaching out to you about it directly...

thanks,
